

I am a regular listener of K-LOVE and their sister station AIR-ONE, in the Monterey, Salinas, Santa Cruz and San Jose area. They are the only two stations I listen to with any regularity. My wife and I support these stations with a donation of \$80 per month to keep them on the air.

These stations make a big impact in this region - most of my friends listen to these stations and they provide wonderful spiritual support in a time when it is desperately needed.

We cannot afford to lose these stations - since they are 100 %supported and funded by the general public, it is obvious that is in the public interest to keep them on the air.

Regards,

Robert Tucker
